DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The amendment filed August 12, 2009, includes portion of independent claims 1, 7, and 13 including "independent timeslot selection" combined with the concept of source bumping, specifically "at the sending node ... detecting at least one instance of conflict in which the departure time of bursts destined for the first receiving node overlaps the departure time of bursts destined for the second receiving node; and reassigning the assigned departure time ..." [portions omitted for brevity]. Such limitations, when considered with the other claim limitations as a whole, do not appear to be anticipated or obvious in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
